**NH ROUTE 123 SECTION IN ALSTEAD TO BE CLOSED FOR SIX WEEKS**  
**TO ALLOW FOR REPLACEMENT OF FLOOD-RELATED TEMPORARY BRIDGE**

The New Hampshire Department of Transportation announces the planned closure of a section of NH Route 123 in Alstead to allow for the replacement of a temporary bridge that was installed during emergency flood repairs last fall.

The temporary bridge carries NH Route 123 over Warren Brook and is located approximately three-quarters of a mile north of Lake Warren. It will be replaced by a new pre-cast concrete box culvert.

This work will require the closure of this section of NH Route 123 for approximately six weeks, from July 17 until August 25, 2006. During the road closure, traffic will be detoured via NH Routes 123A and 10 in Marlow.
